

HOME LEAK INSPECTION CHECKLIST

Every year, Any Hour encourages homeowners to go through their homes to check for leaks. These sneaky and not-so-sneaky leaks could be costing you hundreds of dollars and wasting thousands of gallons of water. Below is a checklist to help you identify some of the major culprits around the house for leaks and might be a fun way to get the whole family involved. Put a in the box if it's leak-free; put an in the box if it's leaking and needs some attention. Most small leaks around the home can be fixed easily and inexpensively--catch them now and let the savings begin!

BATHROOMS	1	2	3	4
 Shower head				
 Bathtub spout/handles				
 Toilet / toilet flapper				
 Sink faucet/handles				
 Pipes under cabinet				

KITCHEN				
 Sink faucet/handles				
 Pipes under cabinet/disposal				
 Dishwasher				

OTHER ITEMS				
 Water heater				
 Clothes washer				
 Outside spigots				

If you've performed your home plumbing inspection and find a leak you can't fix, it might be time to call a professional. The licensed plumbers at Any Hour Services can fix your small leaks before they become big problems. Sinks, showers, tubs, or toilets, and even that sewer main line that connects to the city: if water is supposed to drain down it, we can fix it! **801-692-0455**.
